

Environmental Management System

Globalsat has as its object of business activity the technology solutions of the products, marketing & support after the sale of products & accessories of telecommunication, electrical & electronic devices.

The Company ensures that all its activities comply with the relevant Environmental Legislation.

Environmental Policy of the company has as its primary goal the minimization of the effects of its activities on the environment and its constant concern is:

- the reduction of waste it produces,
- promoting recycling practices,
- reducing the consumption of energy and natural resources,
- reducing its harmful emissions in order to reduce the corresponding effects and adapt to climate change,
- the respect of the biodiversity and the ecosystem of the area that is hosted with good cooperation with local Bodies and Associations.
- where possible, the use of equipment and tools of new environmentally friendly technology
- where technically feasible, working with Suppliers who take Environmental protection into account in their activities

In order to achieve the above objectives, GLOBALSAT:

- It has adopted an Environmental Management System (EMS), which meets the requirements of the international standard ISO 14001: 2015 and which is applied to all environmental parameters of the company. The EMS is monitored, maintained and improved through programs of inspections, evaluations and reviews.
- Provides adequate resources for environmental management: know-how, appropriate equipment, trained and competent staff.
- Establishes Environmental Goals and Objectives, the implementation of which is reviewed and evaluated during the Management Reviews. At the same time, systematic measurements are made and the critical parameters and processes are evaluated, in order to eliminate or reduce the negative environmental effects of the company.

The continuous improvement of the environmental performance of the company and the EMS as well as its compliance with the current Environmental Legislation are a commitment of the Management of the company and is based on the active participation and support of all employees in it.
